</table>
**Low Back Pain:**
- 1 HOURS
  - Faculty: Gregory A Grubb, DO

**Work Related Upper Extremity Disorders (WRUEDS):**
- 1 HOURS
  - Faculty: Gregory A Grubb, DO

**Testicular Disorders:**
- Epididymitis / orchitis
- Hydrocele
- Prostatitis
- Torsion
- STD
  - Faculty: Jason Chao, MD

**Oral Infections and Dental Trauma:**
- 1 HOURS
  - Ludwig's Angina
  - ANUG
  - Herpes
  - Dental infections / Trauma
  - Faculty: John A. Vaughn, MD

**Lower Extremity:**
- 1.5 HOURS
  - Hip / pelvis injury
  - Knee fractures and ligamentous injury
  - Gastrocnemius tear
  - Achilles' injury
  - Differential diagnosis of the swollen leg
  - Faculty: Donald Goodfellow, MD

**Pediatric Respiratory Urgencies and Emergencies:**
- 2 HOURS
  - Bronchiolitis
  - Asthma
  - Croup
  - Pneumonia
  - Faculty: Jerri Ann Rose, MD

**Contact Dermatitis:**
- 1 HOURS
  - Faculty: Susan Nedorost, MD

**Infestation and Bites:**
- 1 HOURS
  - Faculty: Maria Robinson, MD

**Differentiating Generalized Skin Disorders:**
- 1 HOURS
  - Faculty: Susan Nedorost, MD

**Fever without a Source:**
- 1 HOURS
  - Work-up by age group
  - Red flags
  - Faculty: Brendan Kilbane, MD

**Pediatric GI Urgencies and Emergencies:**
- 2 HOURS
  - Vomiting and diarrhea
  - Dehydration / fluids and electrolytes
  - Abdominal pain: Differential by Age
  - Faculty: Amyna Sabir, DO

**Kidney Stones:**
- 1 HOURS
  - Identification, imaging, management and referral
  - Faculty: Stephanie Whitko, MD

**Pelvic Disorders:**
- 2 HOURS
  - PID
  - Ectopic
  - Dysfunctional uterine bleeding
  - Vaginitis
  - Other STD
  - Faculty: Tomas Gigena, MD

**Pediatric ENT Urgencies including Foreign Bodies:**
- 1 HOURS
  - Faculty: Ann Mary Bacevice, MD

---

**SATURDAY & SUNDAY AUGUST 22-23, 2009**
Urticaria and Angioedema:
Faculty: Kent A Knauer, MD

Dyspnea:
- Differential diagnosis and work-up
- PE, CHF, Pneumonia, CAD, Asthma, Valvular Heart disease
- Red flags
- Imaging
Faculty: Marc Salzberg, MD, FACEP

Asthma / COPD:
- Keys to management
Faculty: Marc Salzberg, MD, FACEP

Oral Infections and Dental Trauma:
- Ludwig’s Angina
- ANUG
- Herpes
- Dental infections / Trauma
Faculty: John A. Vaughn, MD

Facial Trauma:
- Facial bone fractures including nasal bone fractures
- Facial Lacerations
- Foreign bodies of the ear and nose
Faculty: Fadi Abbass MD FACS

Vertigo / Dizziness:
Faculty: Hassan Abbass MD FACS

Pediatric Orthopedics:
- Evaluation of the limping child
- Salter-Harris Classification and its significance
- Common pediatric injuries and pitfalls
Faculty: Allison Gilmore, MD

Foot and Ankle:
- Foot fractures and soft tissue injuries
- Plantar fasciitis
- Ankle fractures and ligamentous injury
Faculty: William E. Saar, DO

Palpitations / Arrhythmias:
- Identification and urgent care management of A-fib, Atrial flutter, SVT, bradyarrhythmia.
- Clinical implications and disposition management of all classes of block and other conduction abnormalities
Faculty: Ebrahim Barkoudah, M.D

CHF / Hypertension:
- Initial diagnosis and management
- Disposition
Faculty: Ebrahim Barkoudah, M.D

Eye Injury:
- Corneal abrasions
- Foreign bodies
- Chemical burns
- Orbital trauma
Faculty: Terry Buzzard, MD

Common Acute Eye Conditions:
- Red eye differential
- Infections
- Iritis and other inflammatory eye conditions
- Corneal infiltrates and ulcers
- Contact lens conditions
- Detached retina
Faculty: Terry Buzzard, MD

Epistaxis and Sinus Infection:
- Develop a stepwise approach to management, understanding of risks and benefits, and proper follow-up
- Discuss the principles and utility of the following: Pressure, vaso-constrictors, packing, nasal tampons, cautery, hemostatic gels and dressings, antibiotic prophylaxis
- Sinusitis: Review IDSA guidelines
Faculty: Tony Reisman, MD

Otitis Externa and Otitis Media:
- Otitis Media: Review IDSA guidelines
- Bullous Myringitis
- Otitis Externa: especially as it relates to management of resistant or malignant OE
Faculty: Tony Reisman, MD

Ano-Rectal Disorders:
- Hemorrhoids: Medical and surgical management
- Pilonidal abscess: Management and referral
Faculty: Natasha Ria Cruz, M.D.

Burn Care:
- Referral rules
- Latest management trends
- Dressings
Faculty: Natasha Ria Cruz, M.D.

SATURDAY & SUNDAY SEPTEMBER 12 -13, 2009
THURSDAY SEPTEMBER 17, 2009

CVA / TIA: 1
• Diagnosis, initial management, and disposition
• Imaging
  Faculty: Joseph Toscano, MD

Respiratory infections: 1
• Review IDSA guidelines for the management of Pneumonia, URI, Bronchitis
  Faculty: Joseph Toscano, MD

Head Trauma: 1
• Concussive syndromes / Grading
• Imaging
  Faculty: Joseph Toscano, MD

Headaches: 1
• Migraines
• Cluster H/A’s
• Tension H/A’s
• Occipital Neuralgia
• Red flags
• Imaging decisions
  Faculty: Michael B. Weinstock, MD

Syncope: 1
• Causes
• Red flags
• Work-up
• Disposition
  Faculty: Michael B. Weinstock, MD

Urgent Care Management of Acute Coronary Syndromes: 1.5
• Utility of cardiac enzymes
• Instituting a chest pain protocol
• Managing risk
• Risk assessment tools
• ECG findings of acute ischemia, infarction:
  Common mistakes
  Faculty: Michael B. Weinstock, MD

Principles of Wound Management: 2
• Suture material and choices
• Tissue adhesives (risk and benefit)
• Wound repair techniques
• Wounds under tension
• Special anatomic considerations (lips, tongue, ear, nose, lid)
  Faculty: Natasha Ria Cruz, M.D.
